

- ✓ **The more sensors, the better the ROI**
- ✓ **Savings and ROI depend on fermenters monitored, not capacity**
- ✓ **5 bbl or 60 - the time to ferment and labor to test is the same**
- ✓ **The smaller the brewery, the more valuable the savings**

**SAVE TIME, SAVE MONEY**

At AccuBrew, we understand time is critical. The AccuBrew Fermentation Monitoring System is the most affordable, reliable, and flexible solution on the market, making it cost effective to monitor every tank, year round.

**REDUCE MANUAL TESTING BY 80%**

Do more with your time. Just 3 AccuBrew sensors saves the average brewery a minimum of 64 hours, valued at over \$1,000 annually.

NUMBER OF FERMENTORS	<b>3</b>	Annual Manual SG Tests	<b>480</b>
CYCLES PER YEAR	<b>20</b>	Annual Hours Saved	<b>64</b>
DAYS PER CYCLE	<b>11</b>	Annual Savings	<b>\$1,062</b>

Read our comprehensive **AccuBrew Strategy Guide** to learn more about who we are and how our system can benefit your brewery.

- ✓ **MONITOR EVERY TANK IN REAL TIME**  
Consistent results and alerts you can rely on to make timely decisions to protect your investment and schedule.
- ✓ **PAUSE SUBSCRIPTIONS**  
Reduce costs during your off-season.
- ✓ **PRESERVE & PROTECT**  
Document your processes and protect your intellectual property with our integrated BrewBook.
- ✓ **SHARE DATA**  
Invite collaborators or contract brewery customers to view their batch details.
- ✓ **REDUCE RISK**  
AccuBrew's built-in Team Messaging feature maximizes communication and reduces risk. Employees no longer need to share personal information to communicate at work.
